

SPE adapter

IEC 63171-2, IEC 63171-5

Description

Adapter for Single Pair Ethernet in accordance with IEC 63171-2 and -5 for installation in control cabinets
 Suitable for PoDL applications in accordance with IEEE 802.3bu / cg.
 Robust housing made of PA 66 for industrial applications
 Contacts made of Ni/Au

General properties

Operating temperature	-40 °C - +85 °C
-----------------------	-----------------

Mechanical properties

Connection type	SPE IEC 63171-2/63171-5
Protection class	IP65, in plugged condition
Contact surface	Ni/Au
Housing main material	PA 66
Plugging cycles	750
Type of connector	SPE socket acc. to IEC 63171-2, SPE plug acc. to 63171-5

Standards

Cat./Class	T1-B
PoDL (PoE)	IEEE 802.3bu / cg
