

## Connection / terminal box E30-E90

E30-E90, type VAD

1 VAD 3 4x6 PE  
2 VAD 3 3x6 PE plus  
3 VAD 3 6x6 PE

4 KR6  
5 KR6.4  
(The clamps are part of the box and not available separately.)

### Description

Connection / terminal box, tested on the basis of DIN 4102-12, System Circuit Integrity class E30-E90.

### Application

Branches in cable systems with integrated functional integrity according to DIN 4102-12 must be fused individually so that the short circuit of one consumer / one group cannot affect the other consumers / groups. Branches must therefore have an outgoing fuse.

### Mechanical properties

Protection class IP 54

### Scope of delivery

Halogen-free plastic box, cable glands, ceramic clamps, mounting rail and fire protection plugs.

### Versions

Material number	Product	Outer dimensions	Colour	Material	Clamps	Weight [kg]	Packing unit
301391	Junction Box VAD ... E30-E90	100 mm x 100 mm x 50 mm	orange	Material Halogen-free special compound, fail-safe	4x KR6 + 2x PE 16 mm <sup>2</sup>	0.29 kg	1 pc.
301392	Junction Box VAD ... E30-E90	100 mm x 100 mm x 50 mm	orange	Material Halogen-free special compound, fail-safe	3x KR6.4 + 2x PE 16 mm <sup>2</sup>	0.32 kg	1 pc.
301393	Junction Box VAD ... E30-E90	175 mm x 150 mm x 80 mm	orange	Material Halogen-free special compound, fail-safe	6x KR6 + 2x PE 16 mm <sup>2</sup>	0.61 kg	1 pc.
