Description

Thin, very flexible fibre-optic patch cable (round cable, Ø 3.0 mm) with 12 fibres.
 Low fire load due to its halogen-free flame-retardant LS0H sheath.
 OM3 versions are available with up to 5 m standard lengths (other lengths on request).
 Sticker labelling at both cable ends.
 Standard polarisation modes can be type A, B or type C.

Application

OM3 MTP®-on-MTP patch cables are suitable for all high-performance applications with parallel optic signals in a data centre environment. The round patch cables are pre-assembled with high-performance MTP connectors (female) at both ends. They are assembled to a very high quality and guarantee optimum values for optical performance (IL/RL).
