

FTTH data outlet Squeeze AP

LC/APC design
For retrofitting existing outlets

Surface mounted

FTTH data outlet Squeeze AP, 88 x 112 x 19 mm

Application examples: with blind cover, with TT83, with TV and with 3x type 13

Description

Patented FTTH data outlet for up to 4 fibres.

Housing with label field.

Provides integrated deposit space for connecting cable and pigtail fibre.

Delivery with splice holder for ANT type and shrink splice protection (up to 40 mm length).

Available with 1x LC/APC Duplex, 2x LC/APC Duplex or with LC/APC pigtails.

FO couplers with integrated laser protection cover and captive dust protection cover.

It is not necessary to remove installed cables from the existing outlets:

The Squeeze frame can simply be spread and put over the existing outlet.

Secure fibre protection due to completely closed housing.

The maximum bend radius (15 mm) of all 4 fibres is not exceeded.

The data outlet complies with the directives of the Swiss Federal Office of Communications (BAKOM).

Application

For retrofitting existing outlets such as TT83, TV, RJ45 and 230V easily and quickly.

Developed for Feller EDIZIODue® and Feller Standard design.

Note

Please use the Squeeze cover 3800479 and the cover set 3800480, 3800481 or 3800482 for retrofitting CATV 2-hole and CATV 3-hole as well as SAT outlets.
