Description

High quality, high performance round patch cables, assembled with LCD Uniboot connectors at both ends. An integrated quick release latch allows the user to reverse the polarity (A to A or A to B) quickly on the spot. Compact, space saving cable design with Ø 2.0 mm (cable sheath) improves air circulation. Bend optimised fibre, suitable for small space application. Labelling at both cable ends for quick identification. Optional push-pull rods of adjustable length simplify connector maintenance and insertion in very tight spaces. Optionally available with FR/LS0H or PVC/OFNP.

Applicazione

OS2 LCD-on-LCD patch cords are suitable for all high-performance applications with duplex signals in the data centre environment.
