### Description

Compact, metal-free cable construction with FR/LSOH cable sheath and 12 to 144 fibres.  
 The length of individual cables ("legs") may be defined on the basis of a specific project.  
 All individual cables are assembled using MTP connectors with high-performance 12-fibre Elite® ferrules (LCD connectors available on request).  
 Polarisation modes can be type A, type B or type C.  
 The preassembled cables guarantee high reliability based on 100% performance test and quality inspection in the factory.  
 The cables come with an effective protection for cable and connector.  
 Quick and easy installation on site.  
 Rodent protection optional.
