### Beschrijving

Compact, metal-free cable construction with FR/LSOH cable sheath and 12 to 144 fibres. The length of individual cables ("legs") may be defined on the basis of a specific project. All individual cables are assembled using MTP connectors with high-performance 12-fibre Elite® ferrules (LCD connectors available on request). Polarisation modes can be type A, type B or type C. The preassembled cables guarantee high reliability based on 100% performance test and quality inspection in the factory. The cables come with an effective protection for cable and connector. Quick and easy installation on site. Rodent protection optional.
