

MANAGED NETWORK 25

The Managed Network 25 supplied by Datwyler IT Infra is a professionally managed corporate network for up to 25 employees or 75 devices. All the components are comprehensively monitored, updated and maintained. Problems are proactively identified and solved so that you, the customer, get an all-inclusive worry-free package.

The service provided by Datwyler comprises:

- Operation, configuration and management of the entire network
- Next-Gen security features
- Continuous adaptation and optimisation
- Monitoring of the entire infrastructure
- Proactive support and problem solving
- Regular service reporting
- Guaranteed response times

Hardware included:

Complete network infrastructure including firewall, 48-port switch and two WiFi access points

Security:

Datwyler takes security very seriously. We therefore not only monitor your network infrastructure, but also rely on the latest security features as well as tailoring the zoning of the network infrastructure to meet your requirements.

Services included:

- On-site visit, planning, coordination
- Implementation (~40 hours)
- Project management for implementation
- Continuous improvement of the network environment

Your benefit:

You no longer need to worry about anything to do with the network, either network security or maintenance – at a flat monthly price. Malfunctions and problems are automatically identified and (as far as possible) proactively rectified.

WE WILL BE HAPPY TO ADVISE YOU PERSONALLY.

Just call us or send us an email and we will get back to you immediately:
